WELCOME TO C'EST BON KULTUR

WE WILL BE THE NEW MAINSTREAM

Since 2001, C'est Bon Kultur has worked for a more varied and exciting comics climate. Our purpose is to support, evolve and disseminate comics with higher artistic ambitions. We expect our readers to look for comics that are challenging both visually and content-wise. This is what we deliver.

C'EST BON ANTHOLOGY

The international comics anthology C'est Bon Anthology is our main vehicle to attain our goals. We see no reason to limit ourselves by paying attention to national borders or any preconceived notions of what can be done in comics. We want to publish comics which rely on artistic ambition and a will to experiment, because we believe that's what is needed to expand the boundaries of what is possible to achieve in the comics medium.

COMICS AS ART - ART AS COMICS

In our art exhibitions we experiment with different ways to present comics art in physical space. The art becomes a story and can be read in previously unimagined ways.
